

Public Impact Fellowships

SUBMISSION DEADLINE: Friday, October 25th, 2019 at 12pm (noon)

Public Impact Fellowships highlight and support doctoral and MFA students whose current research has the potential for substantial impact in the public sphere. Ideal candidates will be involved in research designed to significantly improve or enrich the lives of Californians and/or national and global communities.

Award Amount

\$12,000 (full award) or \$1,000 (honorable mention award) to be used as a stipend. All schools are eligible to nominate students to compete for a total of fourteen fellowships. Each of the four full awardees will receive \$12,000. Each of the ten honorable mention awardees will receive \$1,000. Students may choose to accept the award during Winter or Spring 2020, or over both quarters, at their discretion.

Nominees must meet the following criteria:

1. Have a minimum graduate-level UCI GPA of 3.7
2. Be a current, full-time doctoral or MFA student.
3. If a doctoral student, be advanced to candidacy for the Ph.D. by October 25, 2019.
4. Conduct research that has critical public impact. (Examples of relevant research include studies that aim to improve economic opportunity and well-being, health care, social justice, political participation, cultural engagement, and scientific or technical solutions to pressing social issues.)
5. Be willing to have research spotlighted/featured on both the Graduate Division's and UCI's website, brochures and social networks, and be able and available to effectively communicate and discuss their research in lay terms with prospective donors, legislators and/or their staff, and the media during Winter and Spring quarters.
6. **If selected as a finalist, students must be available to give a brief in-person presentation to the selection committee, with no visual aids, immediately followed by a brief interview. These presentations and interviews will take place on Monday, November 18, 2019. Remote participation is not permitted.**
7. If selected as an awardee, students must be available to attend a lunch in early Winter Quarter and accompany Vice Provost and Graduate Dean to Sacramento for Graduate Research Advocacy Day in the event they are selected to participate.

Nomination Process

Schools are asked to collect nominations from each department and forward the most promising nominees, based on merit and the potential public impact of the student's research. There is no limit to the number of nominations. The final selection committee will consider several factors when choosing the awardees, including each student's presentation, interview, ability to convey their research to a broad audience, academic record, letters of recommendation, degree progress, and potential research impact.
