

JOIN UCI'S INDUSTRY PARTNERSHIP PROGRAM

WHAT WE DO

The Leadership Council Business & Industry Partnering Program is established to identify and pursue working relationships with UCI-area business and industry partners, with a focus on connecting UCI Graduate students, including Masters and Ph.D., to opportunities in areas of:

INTERNSHIPS: Through the program, we identify internship programs (paid and unpaid) and work-experience opportunities for graduate students.

EDUCATION: Through ongoing business and industry leader guest speaker programs, classroom visitations, and graduate program workshops.

CONNECT WITH UCI GRADUATE STUDENT TALENT

Let us connect you to our advanced degree programs and bring quality people with valuable skills to benefit your organization for jobs and internships. Contribute to the next generation of the workforce.

SUPPORT A STUDENT INTERN

Our program allows your organization to connect directly with students for your job and internship needs. It also allows you to sponsor a student for a key internship opportunity at another organization such as a local charity, non-profit, or similar opportunity. Matching funds may be available for these sponsorships in 2021.
