---	--------------------

These matching funds will be administered consistent with university policies governing student support. Funds are to be used exclusively for stipend and/or tuition/fees.

Matching funds provided by the Graduate Division will be allocated to a fund's matching account residing in the Graduate Division. The school will charge expenses against that account. The actual matching amount will be based on the spendable income on the fund balance statement provided by the school on a quarterly basis. We will transfer the funds to the matching account once we receive the quarterly statement.

For identification and tracking purposes: There must be one Regents' account (for the school) linked to the fund at the Foundation that is being matched. The school's Regents' account and fund, linked to the fund at the Foundation, will be linked with account and fund (matching funds) at the Graduate Division

The awarding unit will notify the Graduate Dean with the name of the student who receives the matching award, the motivation for selecting the student, and a brief plan for disbursing the matching award to the student.
